350107

Problem: Some turkey registration stations are closed too early to register turkeys the day are harvested.

Whereas with new turkey hunting regulations allowing turkey hunting much later in the day, turkeys may be harvested too late in the day to register them that day.

~~Whereas, turkeys need to be cleaned~~

Therefore be it resolved, the Conservation Congress at its annual meeting held in Lincoln County on April 16, 2007 Recommends the Department of Natural Resources take action to correct this situation by allowing Turkey Registration by phone (simmilar to goose registration).
