Strengthening Earn A Buck Regulation

Earn A Buck has been proven as an effective means of controlling Wisconsin's deer herd. Vital industries to the state's economy such as forestry and agriculture are negatively impacted by our generally overpopulated deer herd. Earn A Buck does not infringe on hunters' right to hunt, but it does insure that the herd is managed in a way that is beneficial to the state as a whole and to the herd itself.

Current Earn A Buck regulations should be amended so that a hunter is required to harvest 2 antlerless deer in order to earn a buck tag.

Would You support strengthening Earn A Buck to require the harvest of two antlerless deer in order to earn a buck tag?
