61-01-2011

title: Extending the Sharptail Grouse Season.

(4)

Proposal resolution: The season should be increased to 4 mo. with a 5 bird, daily, bag limit. Similar to Ruffed Grouse season.

The D.N.R. has already proven, hunting doesn't hurt Ruffed Grouse. It should be the same for Sharptails.

We have spent millions of dollars of license & tax money, purchasing land, burning & spraying, to improve habitat. If this program isn't working, abandon it. Let it grow up into Ruffed Grouse, Woodcock & Deer habitat.

DNR. has spent $950,000. to purchase Big Rock Game Farm, that removed approximately a $500,000 business from the County & off the tax roll.

It's time we reap some benefits.
