Title: Turkey Unit Zone Two

The Problem: Turkey Hunting in Zone 2 includes over 75% of Wisconsin residence. Subsequently, left over permits are sold with a few hours after put out for sale. This leaves hunters who cannot make it in time to purchase a license unable to hunt there unit of choice.

Although turkey management is the same throughout the unit, managing demand is a consistant problem.

Be it resolved that the Conservation Congress at its annual meeting held in Door Co. April 8th 2013 recommends that the Turkey Management Unit 2 be seperated into two individual management units, seperated at the Southern Manitowoc County line.
