MODIFICATION OF THE EARLY SEASON WALLEYE FISHING IN THE FOX RIVER FROM THE DE PERE DAM TO THE MOUTH OF THE RIVER AT GREEN BAY

AT PRESENT ANGLERS ARE ALLOWED TO FISH FROM THE HIGH LINE ELECTRIC TRANSMISSION LINE TO THE MOUTH OF THE RIVER WITHOUT RESTRICTION OF TYPE OF LURE OR HOURS OF THE DAY.

I PROPOSE TO REVISE THE BOUNDRY TO THE POINT OF THE "ISLAND" OR ENTRY TO THE LOCKS TO THE DAM I FURTHER PROPOSE THAT FISHING HOURS MIRROR THOSE OF THE OCONTO RIVER TO 1/2 HALF HOUR AFTER SUNRISE TO 1/2 HOUR AFTER SUNSET

—BE IN RESOLVED—

THE PURPOSE OF THIS RESOLUTION IS TO PROTECT THE RESOURCE DURING ITS BREEDING SEASON. THE CONCERN ARISES FROM THE PRACTICES OF THE ANGLERS CURRENTLY FISHING DURING THIS EARLY SEASON. THESE FISH ARE BEING SNAGGED AT A RATE IN EXCESS OF 95% OF THE TIME. ~~FURTHER THESE FISH ARE BEIN~~ ONE EXAMPLE OF THIS IS A PERSON I KNOW WHO "FISHED" FOR 19 STRAIGHT HOURS AND CLAIMED TO HAVE CAUGHT 250 FISH AND THEY WERE ALL FOUL HOOKED
