Bear Advisory Committee:

The Bear Committee of the Conservation Congress mission is to ensure that we maintain a population of black bear in WI that allows the citizens the ability to harvest a percentage of that population each year but leave an ample amount of mature bears to continue the breeding process.

We also want to promote all legal methods for hunting the black bear which include;
1) Training season for hounds
2) Hunting with aid of hounds
3) Use of hounds and bait
4) Ability to use bait
5) Other methods

The charge of the committee is to help make it possible that everyone that hunts the black bear has a chance to have an enjoyable and maybe a successful hunt and that the future of the black bear in WI remains a noble and well sought after animal.

Environmental Advisory Committee:

DRAFT Mission Statement: *The mission of the Environmental Advisory Committee of the Wisconsin Conservation Congress is to review citizen resolutions, rules, policies, regulations, and legislation affecting the air, land, and waters of the state of Wisconsin. The committee's purpose is to ensure that the ecosystems of Wisconsin are fully protected with every effort taken to enhance the habitat to support Wisconsin's native flora and fauna and educate the citizenry accordingly. The committee will also review the current policies and practices that are in effect to control the spread of invasive species in all lands and waters of the state. The committee will work with DNR staff and the citizens of the state to effectively protect the health and integrity of Wisconsin's natural ecosystems, utilizing the best available knowledge, technical resources and citizen input.*

Fur Harvest Advisory Committee:

The mission of the Fur Harvest Committee of the Wisconsin Conservation Congress is to promote the wise use, management and protection of the Wisconsin's natural resources; specifically its renewable natural resources, and its furbearing wildlife species. We promote the harvest of furbearers through regulated hunting and trapping. We will accomplish our mission by considering sound science and through cooperation and partnerships with user groups, researchers and regulatory agencies. We will take into consideration the ideas and input of citizens. We will make recommendations, through the application of science based management, to the Natural Resources Board and the legislature to assure future generations have ample and healthy furbearer populations and natural resources.

Land Use Advisory Committee:

DRAFT Mission Statement: *The mission of the Land Use Advisory Committee of the Wisconsin Conservation Congress is to provide citizen input in the use and management of Wisconsin's terrestrial ecosystems, both public and private, on behalf of all those who utilize these resources. The committee will promote diverse healthy ecological communities, support control of invasive species, promote environmentally sound sustainable timber harvest, and encourage the compatible use of our public lands, parks, and trails for the diverse interests of those who recreate in our state. Further, the committee will explore opportunities for increased access to land for outdoor recreation including nature based activities.*

Outdoor Heritage and Education Advisory Committee:

The mission of the Outdoor Heritage and Education Committee of the Wisconsin Conservation Congress is to explore ways to help recruit new outdoor enthusiasts, both young and old, and to develop and review strategies to retain those groups and individuals who currently participate in outdoor recreation opportunities in Wisconsin. To accomplish these goals the committee will take into account the diversity, demographics, social demands and expectations of those using Wisconsin's rich natural resources.

Outreach and Public Relations Advisory Committee:

The mission of the Wisconsin Conservation Congress Outreach committee is to:

•Review both internal and external issues, suggestions, and procedures that have been advanced by Congress members, the Natural Resources Board, and the public pertaining to the role, visibility and function of the Congress.

•Discuss potential ways to help the Congress more effectively accomplish its mission, as well as remain a relevant and responsive institution.

•Work to engage the citizens of Wisconsin in productive discussion and exchange of ideas regarding natural resource management.

•To examine the means to promote the role, visibility, and function of the Congress through all appropriate public outreach efforts.

Rules and Resolutions Advisory Committee:

The mission of the Rules and Resolutions Committee is to review the “Code of Procedure” doctrine that governs the Congress in order to ensure its relevance. This Committee will also provide a conduit for citizen resolutions allowing the exchange of ideas and information between individuals or groups and the Congress by reviewing and assigning voter approved resolutions to Conservation Congress Study Committees. It is our purpose to support the noble concept that all citizens have a voice in regards to Wisconsin’s Natural Resources.

We will review the Rules governing the Conservation Congress when asked by the Executive Council or Executive Committee and will provide possible changes for their review. We will regularly review and assign citizen-approved resolutions to Study Committees for action on said resolutions. We value citizen involvement, to ensure the prosperity of our Natural Resources, full and proper use of our Natural Resources, now and for future generations.

Trout Advisory Committee:

The mission of the Trout Committee of the Wisconsin Conservation Congress is to provide input from the public through county delegates assembled from areas throughout the State of Wisconsin making up that committee and addressing issues where public input is deemed appropriate on matters of cold water resources including the flora and fauna that make up those resources.

These issues include but are not limited to:
1. Water quality
2. Water resource management
3. Class and category water designations
4. Bag limits
5. Tackle restrictions
6. Season framework
7. Environmental practices effecting cold water resources
8. Enforcement policies
9. Any other business that would come before the Committee

The charge of the Trout Committee is to ensure that the cold water resources of the State of Wisconsin are not degraded or impaired in any manner, with the necessary steps taken to improve them whenever and wherever possible.

Turkey and Upland Game Advisory Committee:

The mission of the Turkey and Upland Game Advisory Committee is to review, discuss, and provide input on issues pertaining to upland game management to ensure the continued success of Wisconsin's wide array of upland game species. The committee will make recommendations to promote expanded harvest opportunities based on citizen recommendations, sound science, and will work with the department to review management objectives, and encourage good conservation practices, youth hunting, ethical harvest, and quality habitat management.

Warm Water Advisory Committee:

The mission of the Warm Water Advisory Committee is to review, discuss, and make recommendations on questions, rules, and policies concerning warm water fisheries in the State of Wisconsin. The scope of this review includes all bodies of water (lakes, rivers, and streams) located within the state as well as boundary waters surrounding Wisconsin. Furthermore, it includes all fish species traditionally known as "warm water" species regardless of what type of water body they may be located in. Our recommendations are made in an advisory capacity to the public, the Department of Natural Resources, the Natural Resources Board, and the Conservation Congress. The committee supports the long term goal of protecting and enhancing our warm water fishery resource for future generations of Wisconsin citizens.

Wolf Advisory Committee:

The mission of the Wisconsin Conservation Congress Wolf Advisory Committee is to help implement and review current policies and practices that are a part of Wisconsin's Wolf Management Plan. To effectively accomplish this mission, the committee will take into consideration a wide array of biological and sociological issues critical to Wisconsin's Wolf Management Strategy, including but not limited to: management boundaries, depredations, zones, harvest goals, nuisance research, trapping, population modeling, rehabilitation, habitat and other issues of statewide conservation or environmental concern.

Great Lakes Advisory Committee:

The mission Statement of the Great Lakes Committee of the Wisconsin Conservation Congress is to provide input from the public through county delegates assembled from all areas of the State of Wisconsin making up that committee and addressing issues where public input is deemed appropriate on matters concerning the Wisconsin territorial waters of Lakes Superior, Michigan and the Bay of Green Bay.

The charge of the Great Lakes Committee is to ensure that the waters of the Great Lakes that boarder Wisconsin are managed to sustain a healthy fishery and pristine beauty while fully protected with every effort taken to enhance and upgrade their status whenever and wherever possible. The Committee will also assist the agencies that are involved in enforcing natural resource laws and regulations, by offering and facilitating public input.

Specifically, the areas of concern will be defined as:

1) For issues related to regulations pertaining to resource management the committee will use outlining waters and their tributaries as defined in NR 20, Wis. Adm. Code.

2) For issues related to the general health of the Great Lakes, including water quality and ecological impact to native flora and fauna, the committee will use the Great Lakes Basin boundary as described in the Great Lake Compact.

Mississippi River Advisory Committee:

Within and to the support of Wisconsin Conservation Congress process; it is the mission of the Mississippi River Committee (MRC) to advise the Wisconsin NRB on issues, rules, or policies which affect the river and/or other associated natural resources.

The MRC strives to stay acquainted with current river resource management; the science in support or opposition to that management; and with public opinion thereof. The MRC encourages river management agencies to seek public participation in management decisions or policy. Influence stemming from the MRC shall be generated with greatest intentions toward long term benefits to all wildlife resources; and with an emphasis toward preserving public access and harvest of game resources, (i.e., preserving outdoor heritage activities of hunting, fishing, and trapping).
