Subject:	Please DENY the City of Racine"s application
Date:	Thursday, March 15, 2018 1:31:08 PM

Please deny the City of Racine's application to divert millions of gallons of Lake Michigan water for Foxconn's use.

More details are needed. The regional review body should become involved.

We should not be diverting water to Mount Pleasant.

Why isn't Mount Pleasant the applicant in the first place?

Lake Michigan water is to be protected for the public, not for private, foreign corporations.

How will the water used be returned to the Lake? What are the scientific details?

Thank you, DNR, for your work protecting our most precious resource: the Lake.
