Subject:	Foxconn water diversion Racine County
Date:	Saturday, March 17, 2018 12:32:49 PM

Dear Mr. Freihoefer:

I am opposed to the 7 million gallon daily water diversion from Lake Michigan proposed for Foxconn.

Foxconn needs to have the water permits in place from the DNR before they are allowed to build their manufacturing plant. We should not let them build any infrastructure before they receive the water permits.

The State of Wisconsin doesn't have enough guarantees from Foxconn concerning how the used water will be reclaimed and if it will be properly be returned to the lake in at least the same state as it was removed; if not returned
in a cleaner state.

Thank you for your time.

Mary C. Schroeder
