Question: Establish a new bear hunting zone E south of Hy 10 with a Sept 1st opening.

Due to the number of bear that have moved to the southern part of our state, we need to open bear season earlier south of Hy 10; at least by Sept 1st. This is due to when the acorn crop falls and corn is getting ripe.

Would you support a new zone E south of Hy 10 with a Sept 1st opening with closure consistent with other closures in the past

Yes ___ NO ___
