When obtaining price quotes, please be mindful that grant awards are limited to a total of $50,000. Grant requests should not exceed this amount, after subtracting all required and voluntary match dollars.

Proof of United States Enviromental Protection Agency (EPA) or California Air Resources Board (CARB) verification is required for each type of retrofit device being quoted. An EPA or CARB engine emission certificate of conformity is required for any engine repower and equipment replacement project being quoted. *Verification statement(s) and/or engine certificates of conformity must be attached to this price quote.*

VIN[1]	Technology [2]	Technology Make / Model	Base Unit Price[3]	Installation Price[4]	Total Price[5]
				Total Project Cost[6]	

(1) For replacement projects, list the VIN of the equipment to be replaced, not the new equipment.
(2) List the type of technology to be installed on that specific piece of equipment (e.g. DOC, replacement, direct fired heater, etc.).
(3) Base Unit Price is the cost of the technology with all hardware required for proper installation (excludes optional accessories).
(4) Put "NA" if there is no installation cost or if the customer is self installing. Costs of self installations are not eligible.
(5) Total Price includes base price, installation labor if by vendor, and taxes (if applicable). Costs for optional accessories, and all other costs are ineligible and any core charges should be excluded from this quote.
(6) Total Project Cost is the sum of the amounts in the "Total Price" column.
