Subject:	Save The Great Lakes - YOU have the power
Date:	Tuesday, March 20, 2018 12:14:08 PM

I am writing in opposition of the Foxconn Water Usage. Please take action and stop this from becoming a travesty.

"Today is my last plea, the deadline on this is tomorrow.
There are far to few things in the world that we recognize unites us. We unfortunately continue to focus on what divides us. Water, food, and air top the list. It doesn't matter if you are the Vice President or a Vicelord, you ride a ten speed with the handlebars flipped up or in a helicopter to work, you pick fruit or investments for a living.....YOU NEED WATER TO SURVIVE!!!!
Is expressing your opposition of this pointless? I don't know. I personally refuse to live in a world without hope.In my lifetime, I witnessed the cleaning of The Great Lakes and many amazing things. I will hope we cant possibly be so foolish to jeopardize them again and that there's someone out there developing a system to clean nano particles, heavy metals,nuclear waste and 7 miles of plastic floating in our water.

That is it."

I am from Kenosha Wisconsin, and have family and friends who still live there and in other areas near Lake Michigan.

Please stop this before it can't be reversed.

Sincerely,
Amanda Carlino
