Hello,

I am writing to express my **opposition** to the City of Racine's water diversion application.

The Great Lakes Compact became effective on Dec. 8, 2008 and banned the diversion of water from Lake Michigan out of the Lake Michigan Basin. The proposed Foxconn Facility is in the Mississippi River Basin and should therefore not be allowed to divert water out of Lake Michigan.

I believe it is the responsibility of the Wisconsin Department of Natural Resources to deny this permit request and uphold the Great Lakes Compact.

Thank you,

Ciara Miller
