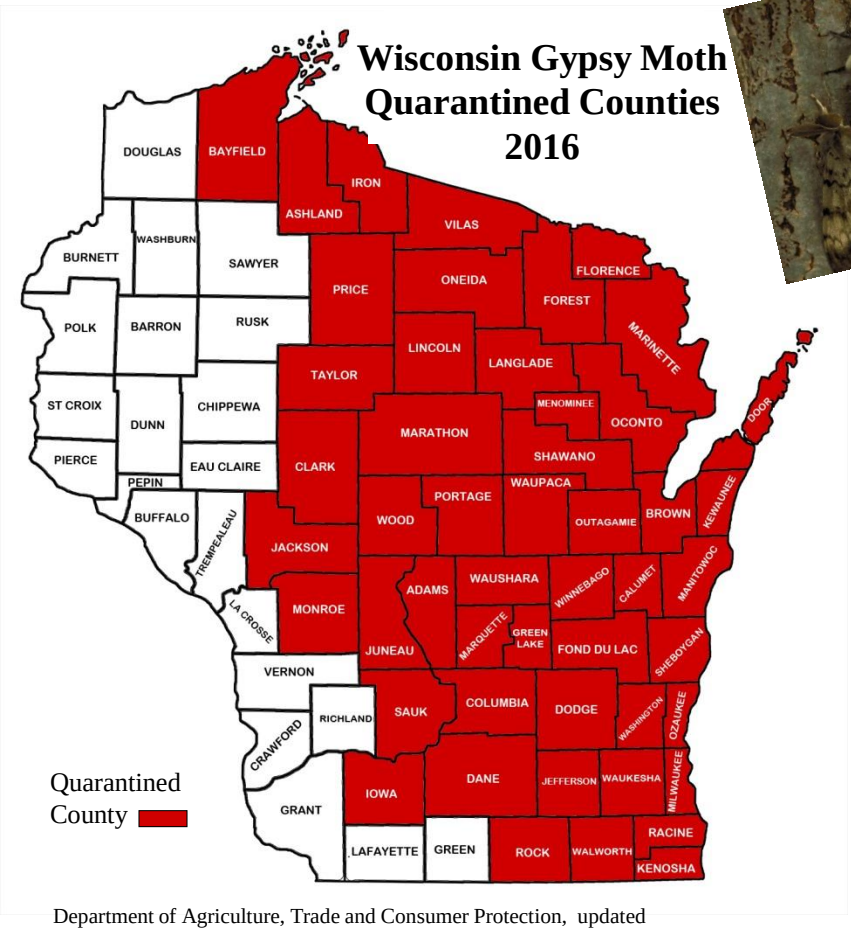
Protect Your Property!

Don’t Take Gypsy Moth Home

Wherever you are traveling next, it is important that you **check your vehicle and belongings for gypsy moth caterpillars, moths, pupae, or egg masses before you leave.** This is especially true if you are traveling to any of the counties in white below (or farther west), where this pest is not yet established.

Gypsy moth is an expert at hitching rides to new areas and creating populations that can strip the leaves off of urban and forest trees.



For more information on gypsy moth visit **http://gypsymoth.wi.gov**

or call the information line at 1-800-642-6684.
