DTR Meeting #2

Rules and Permitting Team Summation of Needs from March 9, 2013 Presented on April 6, 2013

A) Reduce the number of DMU's and combine the farmland regions

- Where are the chronic herd control units?
- Reduce from existing number of DMU's to county that takes us from 131 DMU's to 72. What are the DNR's concerns with this change?
- Current population & harvest data for existing farmland DMU's?
- I would like a map of what a farmland unit would look like. I would like a map of public access land for considering making public land units.
- Need to know the percentage of private land within current DMUs
- Where are the farmland regions?
- What do you mean by the farmland regions? How big of an area?
- Need to know the extent of the farmland regions, map it out.
- What is considered farmland region? Number of farmland in a county? Percent woodland in a region? By county – multi county
- What portion of Wisconsin is considered farmland region? What are habitat differences in the farmland units can they be managed as 1 unit?
- Topographical and satellite maps of current DMU's
- ~~Plot maps of DMU's~~
- How many units have farmland mixed with forest areas
- ~~Farmland units should be broken into smaller units based on ecosystems one unit seems too large.~~
- Kill by DMU and by county.
- ~~Not 1 farmland region .~~
- ~~Yes, DMU's need to be reduced.~~
- ~~Reduce number of DMU's. Establish farmland units.~~
- ~~Possibly 8-10 units.~~
- ~~"Farmland" covers more than one habitat type.~~
- ~~Sure, less units sounds better.~~
- If a county i.e. Iowa County is geographically split North of Hwy 18 how will S of Hwy 18 be able to be managed?
- Are we prepared to change DMU's to some other criteria than similar habitat type?
- Would farmland region be more liberal or less liberal with antlerless tags?
- Is there a scientifically recommended minimum size?
- Why reduce DMU's? Simply to get better deer estimate numbers?

- What are geographically similar areas comprising Wisconsin?
- Should state, county, federal forests be separate units? Most are big enough.
- Need to know where similar habitat areas are throughout the state to determine DMU boundaries.

B) Simplify the regulatory process by setting antlerless harvest goals, harvest regulations and antlerless permit quotas on a 3-5 year cycle.

- ~~3 year basis sounds good~~
- ~~Agree that the more the exposure the more the pain and discontent~~
- ~~Good, should be tried, may have to be changed over time~~
- ~~Strongly disagree! 3-5 year is too long to accurately determine population numbers. What if a severe winter hits or a disease outbreak.~~
- ~~I like this recommendation it can decrease confusion & lower the chance of accidental unintentional violations.~~
- Get information on number of violations based on change frequency
- What is past 3-5 year DMU data show for DMU's changes?
- What about special conditions? Two bad winter years. Need emergency rules?
- Support 3-5 year cycle – need multi-year data.
- We need to know how volatile populations can move in 3 years..5 years and so on.
- How will a heavy winter event impact 3 or 5 year timeframe? What is the current duration of reviews if it's not already 3-5 years?
- Data on yearly estimate how much do they vary each year? Plus or minus 10% 20%...?
- ~~At the start I would ask if we should start in a lesser time frame until we think we have population clarity.~~
- ~~Must be able to respond to changes due to OWK (over winter kill).~~
- Would there be an opportunity to make "emergency" adjustments for example – winter kill like 2007/08?
- Need current process, congress consideration, legislators, NRB.
- What % are there already order 4 antlerless now?
- Will limiting antlerless permits limit number of bucks (EAB permit) in CWD zone?
- How would local vendor know if hunter has already purchased?

C) Limit antlerless deer harvest in regular and herd control zones

- ~~Yes.~~
- ~~Looks like total max of 4 tags (2 extra) is bet in herd control units not regular units.~~

- Current limits.
- Current herd estimate of antlerless.
- What is impact on deer population?
- How many people buy how many tags?
- How many people do this? Why? Has this been a problem?
- If people are upset, they can also purchase a permit.
- Data with information on average number of deer per hunter.
- How many people actually harvest 2 or more deer?
- Is this information showing number of deer registered per individual, i.e. hunters # - 1 deer shot by 1 hunter, # - 2 deer shot by 1 hunter, # - 3 deer shot by 1 hunter etc.
- Different for CWD zone or other units?
- How will group bagging affect number of tags issued?

D) Re-evaluate the effectiveness of the October antlerless seasons in the CWD zone

- ~~Are you in favor of an antlerless hunting October in CWD zone? If yes, how valuable is it?~~
- Info pertaining to public opinion on October season.
- Need information of harvest and participation by unit.
- Success ratio.
- Estimated number of hunters to harvested deer.
- Need to see number of deer harvested in October compared to total harvest. Has harvest numbers significantly changed before, during, after? Has archery harvest been affected?
- If the number of antlerless deer harvested during the October hunt has plummeted since the EAB in CWD zones has changes to the "bonus buck" rule then do away with the October hunt?
- Kill info prior to CWD and since CWD.
- Over the years what has the harvest data shown? How many hunters participate what is the success rate?
- Was there a reduction in antlerless kill in 2012 vs year with October hunt?
- Effectiveness without an earn a buck requirement?
- Did regulation season in 2012 have more or less participants than years with October hunt?
- Can of worms – harvest trends vs infection trends. What are other options?

E) Maintain the current buck limit of one buck per deer gun license (may be used in muzzleloader season) and one buck per Archery Deer License

- ~~No Change outside CWD zone, potential tweaks.~~
- ~~Change the buck limit for gun & muzzleloader to 2, and for 2 in bow.~~

- ~~Do you favor present regulations for buck quota, 1 gun and 1 bow? What if crossbows were allowed for 55, all, prior to gun season?~~
- How many people take 2 bucks per year?
- ~~Does this include CWD-MZ?~~

F) Maintain the Bonus Buck Regulations in CWD – MZ

- ~~Get rid of bonus buck opportunity in CWD zones, and go back to EAB in CWD zones.~~
- ~~Needs more discussion and thought.~~
- How many hunters shot more than 3 bucks with a bow?
- How many hunters shot a second buck with a bonus buck permit? Percent of total kill?
- Data for number of second buck in CWD?
- How does this tie into "passive" CWD management?
- What is the buck population in CWD? Before and after CWD?
- Has a CWD zone ever gone away?
- Would go away if CWD zone is eliminated? Legal language defines CWD zone comes into play, if CWD zone doesn't exist special regs that pertain specifically to CWD zone wouldn't exist either?
- Is there a chance this could go state wide?
- Yes, but re-evaluate if CWD zone goes statewide?

G) Resolve the cross-bow season issue through the public involvement process

- ~~The public involvement process should be surveys.~~
- ~~Why not expand the archery season.~~
- ~~Needs more thought and discussion.~~
- ~~Crossbows are not archery equipment!~~
- ~~Would you accept a shortened archery season if crossbows were allowed for more users. Crossbows need to be limited to older or disabled hunters. The legislative needs to stay out of the issue.~~
- Can you provide the results of DNR mail surveys and conservation congress votes on full inclusion of crossbows? Not age 55 questions just full inclusion questions.
- Conservation congress process.
- Is this a legislative matter?
- What is the crossbow issue?
- What are current Regulations?

H) Resolve the baiting and feeding issue outside CWD affected areas

- ~~If CWD keeps spreading, this question goes away.~~
- ~~Outlaw feeding and baiting statewide. It's not hunting in my opinion that makes hunters look bad to not hunting public and it spreads disease.~~
- Baiting – effects on disabled hunters.
- Any studies done on how deer habitats are affected by baiting, nocturnal, change in movement, increase disease, etc?
- What other groups impacted by elimination?
- ~~Need to address bait is a deer problem – does not relate to use of bait for bear.~~
- What kind of push back is there from other groups? – Vendors – Bear hunters
- How much is spent on bait/feeding each year? Is income important to some states?
- How many people feed outside the deer season?
- How many people would stop hunting without baiting?
- How many people bait during the deer season?
- How many hunters/camps currently use baiting?
- What method process is needed to make changes?
- Can this be enforced?
- How many violations have occurred in the past few years on this?
- How many deer farms have CWD? Why not stop this problem?
- Info pertaining to the effectiveness in enforcement.
- What counties are baiting and feeding?
- Biological info on deer behavior changes with baiting i.e. going nocturnal, disease transmission.
- Is baiting and feeding worth having based on disease spreading?
- What is the value $ of the industry? They are vocal in keeping it.
- What are the numbers for baiting? Feeding?
- Hunter conflicts deer behavior commercial dealer response violations.
- Definition of "bait"?
- What is baiting?
- What is current penalty?

I) Base antlerless permit quotas on DMU historical demand.

- How many people purchase more than 2 permits per unit?
- ~~Leave alone.~~
- ~~Extra tags in place of free tags?~~
- ~~Set quotas as it seems to improve the perception thus improving hunter DNR relationships.~~
- ~~Use them or should read purchase them vs unlimited free permits?~~
- ~~Yes.~~

- How will this recommendation be changed when DMU's change and numbers change accordingly?
- If followed, won't this just insure a continued increase in the herd? Don't you need to look at other methods/ways to reduce the herd?
- Are there people purchasing antlerless permits with the intent of never using them?
- Maximum historical demand?
- Number of permits issued and used?
- How do we track bonus antlerless kills vs regular tags?

J) Increase the cost of all antlerless tags for regular and herd control units to $12

- ~~No needed information.~~
- ~~Very good question, should any free tag be allowed?~~
- ~~Why hold it to $12.00? It should be higher~~
- ~~Should we continue giving free tags with regulation?~~
- ~~Does this include CWD-MZ?~~
- ~~Will the current "free" tags you get with your license not cost $12.00?~~
- What is the expected revenue and its use?
- ~~Is this for the additional tags? Or the ones with the regular tag?~~
- ~~Is this referring to the additional antlerless tags?~~
- No, the $2.00 tags I hear are more effective at harvesting antlerless deer. Would like more stats on this.

K) Consider charging a fee for antlerless tags in the CWD zone.

- ~~Yes, $2.00.~~
- ~~I'm okay with this.~~
- ~~Yes, $6.00 everybody loves a ½ off bargain.~~
- ~~Change to have value $3.00-$5.00.~~
- Would there be any limit on permits?
- Why? Don't we want deer shot here? Will a change really give value to the antlerless segment?
- How many tags total/used?

L) Establish a public~~ lands antlerless permit system.~~

- ~~Good.~~
- ~~Yes.~~
- ~~If hunters on public land seem to like quotas or antlerless deer and public tags then do it.~~

- ~~Public land owners – generally grow trees – they don't want deer numbers to determine understory growth.~~
- How do other states manage tags on public vs private lands?
- What other states have public land permits? How do they work?
- What other states do this and how do they do this?
- What lands? How large a unit? Public lands become own unit?
- ~~Figure how to sell only to non-landowners should not be sold only to non – land owners.~~
- How many landowners/hunters shoot antlerless on public land but not on the land they hunt bucks?
- What if public & private lands are intermixed?

M) We feel the Conservation Congress must have a more active role in deer management decision-making at the local level.

- ~~Good questions.~~
- ~~The congress already has an active role and it should continue.~~
- ~~Needs discussion? What about the general public? After all it is local!~~
- ~~Do currently CC board feel their opinions are not being herd?~~
- ~~Need more info, I know little about how the CC works and it's idle. I would like to know more history from AI on how it's worked in the past.~~
- ~~WCC should set goals with game managers in each specific DMU in meetings. WCC never know why the goal was set why it is.~~
- How many / which rules went through legislation without conservation congress input?
- Which and how many rules have been successful through conservation congress?

KEY

~~RED = Not addressed mostly opinion not a request for data~~
YELLOW = Addressed in the presentation or in your folder

Section IV: Regulations and Seasons

These questions address issues identified in the Deer Trustee's final report on actions Wisconsin should take to establish regulations and season structures that meet the biological requirements for a sustainable deer population and also best meet the desires of the diverse publics which are interested in deer and their management.

1. Wisconsin has more than 130 deer management units (DMUs) that were developed in-part through public input. DMU boundaries take into consideration habitat type, abundance of public land, identifiable boundaries and other factors within the unit.

   1A. How strongly do you support or oppose the idea of combining current DMUs so that there are fewer in number but larger in size? **(check one)**

   □ Strongly support □ Moderately oppose
   □ Moderately support □ Strongly oppose □ Unsure

Recommendations

- This question appears appropriate
- Easy to understand as long as survey taker has read the DTR
- Good question, reads well with good choices
- Easier to determine deer numbers, etc
- Number and larger
- An example would help clarify
- Should it be explained "how" DMUs will be combined similary habitat etc
- Would it be better to ask in a numerical graph?
- Several people answered the question and did not provide recommendations to the question

Formatted: Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

   1B. How strongly do you support or oppose creating DMUs that follow county boundaries? **(check one)**

   □ Strongly support □ Moderately oppose
   □ Moderately support □ Strongly oppose □ Unsure

Recommendations

- Consider river, highway to habitat boundaries
- I think there are more important than county boundaries
- This question is okay
- If this happens is the DNR staffed at the conty level to cover this
- Include only support or oppose
- Shouldn't this be enlarged? Could enclose more than one county or multiple counties. Following habitat boundaries
- Can county be separate management wise per habitat? If in same DMU?
- If counties are used as DMU's will necessary population adjustments be resisted by politics – made stronger because of existing political structure – conservation congress groups
- Not sure we should ask this question
- Biologists by county? Problems when doing boundaries?
- Can we include the fact that county boundaries don't necessarily follow identifiable boundaries?

Formatted: Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

DRAFT

- Are DNR staff currently split up by county lines?
- Several people answered the question and did not provide recommendations to the question

Formatted: Indent: Left: 0.5"

2. Currently there is no limit to the number of antlerless permits a hunter can purchase in DMUs where leftover permits are available. It has been recommended that this be changed to limit permit issuance for each individual. How strongly do you support or oppose limiting the number of antlerless permits a hunter can purchase for a specific DMU? **(check one)**

□ Strongly support □ Moderately oppose
□ Moderately support □ Strongly oppose □ Unsure

Recommendations/Comments

- Easy to understand question
- Based on population density & moderate support
- For a specific DMU per year?
- This is a good question. Maybe add the percentage of hunters that shoot 3 or more deer.
- I don't like this question, add yes, no, support more
- If in CWD zone increased antlerless tags earen right to shoot more bucks, phrase question to verify yes or no
- Need to note how many individuals purchase more than 3 permits or something similar
- Several people just answered the question

Formatted: Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

Formatted: Indent: Left: 0.5"

2A. **If you support**, what would you recommend as the maximum number of antlerless permits a hunter could purchase for a specific DMU? _____ antlerless permits per DMU

Recommendations

- Ok, I guess
- Ok, are these different from those permit one gets with their license?
- 2 additional antlerless permits
- For outside of CWD
- For a specific DMU per year?
- Add the word "additional" to "currently there is…to the number of additional antlerless permits per DMU"
- Will limiting antlerless in CWD zone limit addition right to harvest bucks
- Additional permits? Any & all units?
- Add additional antlerless permits a hunter can purchase
- Add another option, "Do you favor limiting the antlerless harvest, yes, no, up to 3, 5, more.

Formatted: Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

Formatted: Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

3. Currently antlerless permits in the CWD Management Zone (MZ) are free. Do you believe that antlerless permits in the CWD MZ should remain free or should they have a fee similar to antlerless permits in other units? **(check one)**

□ Definitely remain free □ Probably have a fee
□ Probably remain free □ Definitely have a fee □ Unsure

Recommendations

Formatted: Indent: Left: 0.5"

DRAFT

- Need to explain why "additional" tags are needed. (What is management objective?)
- Briefly explain why the fee would be added
- Change to yes/no/unsure
- Add bonus tags
- Fine as is but add "additional" tags

Formatted: Bulleted + Level: 1 + Aligned at: 0.75" + Indent at: 1"

3A. If you believe there should be a fee for an antlerless permit in the CWD MZ, what would you recommend as a reasonable fee?

$_____ per antlerless permit OR $_____ for _____ a set of four antlerless permits

Recommendations

- Additional antlerless tags
- Fee should be determined by CWD, other diseases, research needs
- Has Jordan's surveyed or hazard a guess as to what a fair price would be? What did the budget set as a price?
- Does this include existing "Free" tags with license issued?

Formatted: Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

4. It has been suggested that creating antlerless permits specifically for public lands would reduce hunter crowding on public lands. How strongly do you support or oppose creating antlerless permits for public land deer hunting as a way to reduce hunter crowding? **(check one)**

□ Strongly support □ Moderately oppose
□ Moderately support □ Strongly oppose □ Unsure

Recommendations

- Re-word to real issue hunters taking antlerless off public instead of their own land
- Need discussion, will it really reduce hunting on public land? Will they become their own unit?
- Doesn't deer seen/harvested control hunters?
- Good question
- Unsure, need more information
- Several answered the question and did not provide recommendations

Formatted: Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

5. Now consider future deer seasons and the issuance of antlerless permits in general. What type of antlerless permit system do you believe would be most appropriate for your DMU? **(check one)**

□ Zero antlerless deer permits (means buck-only during gun and archery seasons)

□ Small number of antlerless deer permits at $12 each

□ Enough antlerless deer permits so that most hunters who want a permit can get one at $12

□ Enough antlerless deer permits at $2 each so that all hunters are able to get one or more

□ Enough free antlerless deer permits in counties with CWD+ deer so that all hunters receive as many free antlerless deer permits as they want

□ Some other system? _____

DRAFT

□ Unsure or no opinion

Recommendations:

- Doesn't this go against good management? It is not a question of permit cost but a question of antlerless harvest needs!
- The DNR must have info required to respond to deer numbers on the land that fall season. Antlerless kill must be determined by deer population trend
- Moderate based on population goals
- This question has to many choices. Reduce to less, can not measure results.
- Add a line to list, the DMU the person is answering so you can link the DMU to the answer
- Moderate number of antlers tags at $12.00
- Leave as is
- High number of antlerless deer permits at $2.00 each with all hunters able to get "X" number of tags in non CWD zones. $2.00 tags are unlimited in CWD zones.

Formatted: Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

Formatted: Indent: Left: 0.5"

6. It has been recommended that the mandatory in-person registration system be replaced with an automated system that allows people to register their deer by placing a phone call or registering through the Internet. How strongly do you support or oppose a statewide automated system for registering harvested deer? **(check one)**

□ Strongly support □ Moderately oppose
□ Moderately support □ Strongly oppose □ Unsure

Recommendations:

- Add to question: "leaving personal check in during gun season".
- Break into archery & gun season (2 questions)
- Yes/no/unsure
- Ask to questions, one as is, one except 9 day gun season
- Fine as is. Should we do this? People are use to this system. Could be a supplemental option.
- Will this have a negative impact on validity of deer harvest numbers
- Does the staff fell the information would be useful & accurate
- Would this hurt local business's that do the registration?

Formatted: Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

Formatted: Indent: Left: 0.5"

7. Please tell us whether you agree or disagree with each statement about deer baiting and deer feeding. **(circle one number for each item)**

1=Definitely agree 3=Probably disagree
2=Probably agree 4=Definitely disagree 0=Unsure

All deer hunters should be allowed to use bait.....	1	2	3	4	0
Only elderly and disabled hunters should be allowed to use bait..	1	2	3	4	0
Baiting should be banned for all deer hunters.....	1	2	3	4	0
Deer feeding should be allowed year-round near homes.....	1	2	3	4	0
Deer feeding should be banned year-round.....	1	2	3	4	0
Deer feeding should not be allowed during the gun deer season...	1	2	3	4	0

DRAFT

Recommendations:

- Is allowing baiting in CWD zone being considered as part of "passive approach"
- Change to yes or no, define baiting (not food plots) eliminate feeding – focus on hunting
- Make these all separate questions
- Do you consider ¼ or ½ acre of beets or turnups as a bait? Or ask is a hunter who provides food to deer to his advantage in attracting deer a baiter?
- Is there a distinction between the CWD zone and elsewhere
- Need definition of baiting and feeding on the question
- Add question pertaining to food plot = baiting
- Leave as is

Formatted: Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

Note: Several people answered the question rather than adding input to re-writing the question

8. The CWD Management Zone boundary is intended to outline an area of the state where CWD is known to exist. The Management Zone is where special rules and regulations, and management actions, have historically been implemented to contain the disease and keep it from spreading. Since 2012, six CWD+ deer have been detected outside the Management Zone. These new positives cause us to question if the CWD Management Zone boundary should remain in effect. Which of the following options best reflect your opinion? **(check one)**

□ The boundary should remain in effect and the DNR should maintain what it's been doing (continue scientific disease surveillance and maintain current hunting season regulations)

□ The boundary should remain in effect and the DNR should step up their efforts to reduce deer density in the CWD MZ and re-implement management actions that will aid in reducing deer density (which may include Earn-A-Buck, October gun hunt, extended hunting opportunities, and/or sharpshooting)

□ The boundary should be eliminated as it has no meaning now that CWD has been found outside of the zone

□ I'm unsure

Recommendations:

- Define food plot / baiting
- What is baiting?
- In the last 10 years? In the last year? What time fram?
- We need to include food plots as bait. Its done for the same purpose. A bait with roots is still bait.
- (Not a planted crop)
- Do you hunt over a food plot?
- Have you changed from baiting, dumping food on the ground, to planting a crop?

Formatted: Bulleted + Level: 1 + Aligned at: 0.5" + Indent at: 0.75"

DRAFT

9. Baiting and feeding of deer in the CWD Management Zone is prohibited because scientific research has found that baiting and feeding can concentrate deer which can lead to disease transmission risk via urine, feces, and saliva. For this reason, baiting and feeding were not considered separately but were both prohibited. It has been recommended that the baiting and feeding issue be resolved for the remainder of the state outside CWD affected areas. Which of the following statements best represents your opinion? **(check one)**

   □ Baiting and feeding activities should be banned statewide

   □ Current baiting and feeding regulations should remain -- the activities are banned where CWD has been found and allowed where CWD has not been found

   □ Baiting and feeding activities should be allowed statewide regardless of where CWD is found in the state

   □ None of the above

Recommendations

- Baiting & feeding should be banned statewide
- Current regs remain
- Leave as is
- Why are we allowing baiting and feeding in the state with CWD being present
- Eliminate feeding or change to baiting/feeding
- Question to lengthy, in discussion part?
- Confusing as #7, combines baiting and feeding which are different outside of the CWD zone!
- Include language that states that food plots also cause privatization and hoarding of deer on the lands of bait plotters and cause conflits and disease transmission issues that need to be addressed or we are not really addressing all baiting
- Include small food plots in the question because small food plots cause the same concerns from a disease transmission standpoint. ¼ acre of turnips congregates deer and urine, saliva, feces, and spread is the same in small plots

Formatted: Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

Formatted: Font: Not Bold

DRAFT

Thank you for your valuable input and for helping us manage the white-tailed resource for everyone's enjoyment.
