To Whom it May Concern-

While I am excited about the potential economic benefits of the Fox Conn corporation locating to WI, I am very concerned about environmental impacts- especially as they relate to Lake MI. The fact that a private company would be taking so much water from our lake (which is intended to serve the public, not private industry) is a big concern for me and seems to be in violation of our Great Lakes Compact. Please consider the health of the lake and the overall public good when making decision about Fox Conn and their rights. I am opposed to Fox Conn being able to take water out of Lake MI for free.

Thank you,
Sarah B. Fritz
