R.A. SMITH NATIONAL, INC., BROOKFIELD OFFICE

R.A. Smith National, Inc. has been working at evaluating all the areas of our operation to see how we can improve and become more sustainable. The list below is just a few of the things we have done to accomplish that.

Accomplishments:

- Set up a recycling program in the office.
- Converted all light fixtures to CFL's on T8.
- Installed a 19.3 KW solar system.
- Installed a 1.5 KW wind turbine on our building.
- Installed a 96% efficient boiler.
- Added lighting controls in the building.

Our goals for the upcoming year and beyond would be to complete an EMS (Environmental Management System) and to accomplish the items listed below.

Office Objectives and Targets:

- Decrease total electricity and natural gas used.
- Decrease the total gallons of water used.
- Organize a sustainability team within our organization.
- Get our building Energy Star rated.
