Subject:	Comment on request for water diversion for Foxconn project
Date:	Wednesday, March 21, 2018 8:23:16 PM

Sirs:
I urge you to decline the request for 7 million gallons a day of water for use by the Foxconn company. This water diversion will set a precedent for other companies to request Lake Michigan water for private use that will take water from the Lake Michigan water basin. This is against the terms of the Great Lakes Compact; I urge the DNR to fulfill its obligation to adhere to the terms of the compact and not bend the law for this use.
