

Lead Service Line Inventory Technical Assistance

FREE Technical Assistance Is Available From Jacobs Engineering

What do I have to do to get the FREE technical assistance?

Nothing. Jacobs Engineering will reach out to water systems by the end of 2023 that are eligible to receive free assistance. You should let them know if you decide to accept the no-cost technical assistance to help with your lead service line inventory.

What does the free technical assistance include?

It includes file review, service connection list, LSL locational identifier assignment, required spreadsheet completion/submittal and tracking process for unknown materials. Visual inspections are **not** included.

What if a contractor other than Jacobs Engineering contacts us offering free assistance?

Check with your DNR Field Representative if any contractor other than Jacobs Engineering offers you free technical assistance.

Is there a deadline for when this inventory needs to be completed?

Completed lead service line inventories are due to the DNR by **Oct.16, 2024**.
