Subject: FoxCONN proposal is a disgrace
Date: Thursday, March 15, 2018 7:13:36 PM

It sickens me that lawmakers are selling their souls and our GREAT LAKE to FoxCONN. The water supply proposal is a disgrace. PLEASE be responsible, and protect our water supply. The proposal as it stands, and this project as a whole, is setting a horrifying president. Please reject the proposal, and show you care about our Citizens, Resources, and State.

Sincerely,

Cindy Richardson
