Subject:	Do not divert lake water for the sake of Foxconn!
Date:	Wednesday, March 21, 2018 9:13:08 PM

The Great Lakes is our greatest resource to all the communities that reside on Lake Michigan. Life giving water should never be diverted for the profit of a few especially when the majority of Wisconsin residents are against Foxconn. We are a country of checks and balances. I urge the DNR to protect Lake Michigan and all of our communities and vote no against water diversion to Foxconn.

Sincerely, Mark Zachar
