Subject:	Deny Racine Diversion Application
Date:	Friday, March 16, 2018 3:06:08 PM

Adam Freihoefer,

The City of Racine's request for a new diversion of 7 Million gallons a day violates the intent of the Great Lakes Compact and will set a horrible precedent. The DNR should reject this application because Compact says that "all the Water so transferred shall be used solely for Public Water Supply Purposes within the Straddling Community" and FoxConn a private industry.

Additionally, the diversion application does not provide enough detail about the quality of the water that will be returned to the City of Racine and Lake Michigan.

Look to the future, people. Fresh water is a scarce resource on our planet. We are so very lucky to be near the Great Lakes and the volume and quality must be protected.
