I urge you to reject the proposal to allow Foxconn to pull more water out than they return. This is a dangerous precedent that opens the door for other businesses to do the same, all at a time when our water resources will only become more valuable throughout the rest of this century. Please represent the best interest of all citizens, not just the wealthy, and make them go back to the drawing board on this one.
Kevin O'brien

Power without love is reckless and abusive, and love without power is sentimental and anemic. Power at its best is love implementing the demands of justice, and justice at its best is power correcting all that stands against love. Martin Luther King, Jr.
