Subject:	Honor the Great Lakes Compact -Deny water diversion for FoxxConn proposal
Date:	Wednesday, March 21, 2018 11:07:32 AM

To the Powers that be,

I am a parent and landowner on the shores of Lake Michigan.

The FoxxConn proposal is a debacle. New industry can utilize existing empty factory buildings and land in Racine or Kenosha Counties where the infrastructure already exists!
Gobbling up more countryside and wetlands is not the answer.

This permit request is an insult to the water on more than one level.

Please deny this permit.

Sincerely,

Bob Bultman
