I am adamantly against the Foxconn project and the water diversion application by the City of Racine. Shame on you Racine. You are not what I thought you were.

In regard to Foxconn, you exactly who we suspected: A foreign company with suicide nets and a reputation of abuse, greed, and gall.

How dare you DNR for just letting Foxconn and our Governor just walk all over you.

What , no Environmental Impact Statement ? And your mitigation claims are a bold faced lie.

Lastly, the financial ride you are about to take us on is absolute looting of the state.

Speaking truth to power,
Randy O'Connell
Evansville,WI
