Subject:	Deny Racine Diversion Application
Date:	Sunday, March 18, 2018 11:33:18 AM

Adam Freihoefer,

The City of Racine's request for a new diversion of 7 Million gallons a day violates the intent of the Great Lakes Compact. The diversion is primarily for a private industrial use (Foxconn) rather than public ("largely residential") use as required by the Great Lakes Compact which states, "all the Water so transferred shall be used solely for Public Water Supply Purposes within the Straddling Community." The diversion application also does not provide enough detail about the quality of the water that will be returned to the City of Racine and Lake Michigan. For these reasons, the DNR should deny this application.

Please, put the future of Wisconsin and the Great Lakes ahead of short term political gains. The diversion of water for the sole purpose of financial gain for one company that does not care what happens to the environment is not in the best interests of Wisconsin.
