Subject:	Water to be diverted from Lake Michigan and used for Foxcom processes
Date:	Tuesday, March 20, 2018 6:18:34 PM

My comments; Can we use better employment opportunities, of course. And I do feel our area could use and support 3,000 more good jobs, but, what is the impact of more than 4 times that employment plus, including Foxcom water usage. I feel that the burden is on the DNR to protect the environment, even at this late date. Pollution of our water, lands and of Lake Michigan from Foxcom is a concern of mine.

Thank you,

Charles Johnson
