Hello,
I am writing to ask that you PLEASE reject Foxconn's request to divert 7 million gallons of water per day from Lake Michigan. Please don't let them take even 1 million. The Great Lakes are a gift that need your protection. I know they (Foxconn) promise to return treated water back to the lake, but who really knows what chemicals will be in that treated water, or what kind of irreversible damage could be done to the Great Lakes as a result. In my opinion, no amount of money is worth that. We as a species need water to SURVIVE.

Thank you in advance,
Diane C Braden
