Great Lakes Study Committee:

The mission Statement of the Great Lakes Committee of the Wisconsin Conservation Congress is to provide input from the public through county delegates assembled from all areas of the State of Wisconsin making up that committee and addressing issues where public input is deemed appropriate on matters concerning the Wisconsin territorial waters of Lakes Superior, Michigan and the Bay of Green Bay.

The charge of the Great Lakes Committee is to ensure that the waters of the Great Lakes that boarder Wisconsin are managed to sustain a healthy fishery and pristine beauty while fully protected with every effort taken to enhance and upgrade their status whenever and wherever possible. The Committee will also assist the agencies that are involved in enforcing natural resource laws and regulations, by offering and facilitating public input.

Specifically, the areas of concern will be defined as:

- 1) For issues related to regulations pertaining to resource management the committee will use outlining waters and their tributaries as defined in NR 20, Wis. Adm. Code.
 - 2) For issues related to the general health of the Great Lakes, including water quality and ecological impact to native flora and fauna, the committee will use the Great Lakes Basin boundary as described in the Great Lake Compact.
-
