Title: Melancthon Creek Trout Regulations

The Problem:

The regulations are complex on Melancthon Creek, which is located in northern Richland County and Vernon County, having 2 sets of regulations. The northern portion is restricted to artificial lures.

[REDACTED]

The restriction limits fishing for small children and some older folks that have always used live bait. The use of live bait will not significantly change the population of Melancthon Creek.

BE IT RESOLVED, that the Conservation Congress at its annual meeting held in Richland County on April 16, 2007 recommends that the Conservation Congress work with the Department to take action to correct this situation by introducing rule change to make the northern part of Melancthon Creek regulations the same as the southern portion.
