

3/4/09

TO: All conservation congress Chairmen north of Hwy 8

Gentlemen,

Attached is a resolution to establish a lower uniform bag limit on Crappies on all lakes north of Hwy 8 in Wisconsin.

Many fishermen have noticed the drop in the size of Crappies being caught on many northern waters. Crappies are probably the second most sought after fish after Walleye. However most Crappie fisherman keeps all Crappies the catch most notably large crappies.

At present the bag limit on most lakes north of Hwy 8 is 25.

I request that you read the resolution on April 13<sup>th</sup> 2009 at the Spring Hearings and ask for a vote by those in attendance.

I welcome any questions or comments,

Thank you for your cooperation,
