RESOLUTION

Early goose hunting season

The Problem:

The local Geese that winter over here are causing problems to the Golf Courses, ZOO and Beach areas in all our local Lake Michigan shore lines during the summer and at other times. They are also around the Airports. The accident on the Hudson could happen here in Wisconsin at some of our local airports.

Present Law authorizes the harvest of 5 birds per day from Sept 1st Through Sept 15th.

The local flock of geese continues to grow even with the present season And that the flock winters over after the fall migration.

BE IT RESOLVED that the Conservation Congress at its annual meeting recommends that the Conservation Congress work with the Department to take action to correct the situation by introducing a rule change. Allowing the Early Goose Season to start on August 15th with the same 5 bird limit.
