Conservation Congress review of all proposed Game and Fish rule changes.

Where as; For more than 75 years the Conservation Congress has been the peoples voice on issues proposed to the DNR

And where as; This review has kept political and special interest pressure from having much impact in the formation and adoption of proposed rule changes.

And where as; Special Interest groups usually fail to see how proposed changes affect other interests than their own.

And where as; Most Politicians rely on the input of Special Interest Lobbyists in the formation of an opinion on proposed changes, and therefore may not get a clear view of the issues at hand.

Therefore be it resolved; That the Conservation Congress at its annual meeting in Rusk County on April 12<sup>th</sup> 2010 recommends that all proposed rule changes, concerning Game and Fish management in the State of Wisconsin go thru the Conservation Congress review process before the State Assembly and Senate acts on them.
