Ability to Transfer a Class A Bear Harvest Permit

The problem: There is no way to transfer a Class A Bear Harvest permit to a present or past armed forces person.

Where as; There are many present and past members of our armed forces who have defended or are defending our country and our freedom of rights.

Where as; We should have the capability to transfer a Class A Bear Harvest permit to any present or past armed forces member.

Where as; These armed forces personnel have given or are giving their time to defend our country and our rights.

Whereas; These permits will already have been applied for and received by a person who had applied for and received a Class A Bear Harvest permit for that year.

Where as; There is no need to have any special permits available above and beyond the approved quotas or permits that the DNR has set for that years season.

Therefore be it resolved here at this hearing held in Price County on Monday April 9th 2012 that we request the support of the Wisconsin Conservation Congress, Department of Natural Resources, Natural Resources Board and the Legislators of the State of Wisconsin to make it possible to be able to transfer a Class A Bear Harvest permit to a present or past member of the armed forces)
