

Citizen Resolution # 190116

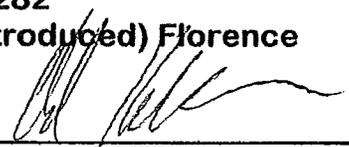

yes - 21
no - 6

Title: Youth Antlerless Tags

The problem: Youth antlerless tags are made available from the time a youth gets their first hunting license, and up to the age of seventeen. There has been plenty of discussion as to whether this is too long. The effects on the deer herd, and whether it does any good for recruitment.

BE IT RESOLVED, that the Conservation Congress work with the department to implement a rule change to eliminate the youth tags after the age of 14, instead of 17.
