

**Wisconsin Clean Diesel Grant Program
APPLICATION CHECKLIST**

Applications and supporting documents must be postmarked by August 23, 2013. As noted below, some items are applicable only to certain types of applicants or if applying for certain technologies.

INCOMPLETE APPLICATIONS MAY BE REJECTED.

1. Application Worksheet – print on legal size paper or submit on a CD (only if legal size paper is unavailable)
2. Price Quote Form(s) for each product/service requested – to be completed by vendor(s)
3. EPA or CARB verification letter from vendor – required for retrofit devices and engine emission upgrade kits only
4. EPA or CARB engine certificate of conformity from vendor – required for engine repower and equipment replacement projects only
5. Evidence of early replacement – required for engine repower and equipment replacement projects only
6. Written approval from equipment owner – required only if applicant leases any of the equipment on application
7. Signed Certification Statement

Return the completed application and forms to:
