

NATURAL RESOURCES BOARD AGENDA ITEM

SUBJECT: Request adoption of Fisheries Management Rule Change Proposals received favorably at the 2007 Spring Fish and Wildlife Rules Hearings

FOR: JUNE 2007 BOARD MEETING

TO BE PRESENTED BY: Joseph Hennessy

SUMMARY:

The Department recommends that the rule revisions listed herein be adopted and incorporated to Wisconsin Administrative Code. These proposals were presented at the Spring Fish and Wildlife Hearings, April 16, 2007, and received favorable public response, are consistent with the management efforts of the Bureaus of Fisheries Management and Law Enforcement, and have been reviewed by Department Legal Services' staff.

The Department proposes adoption of three rules of statewide interest: 1) to eliminate the restriction on maximum allowable size of landing nets; 2) to implement a 50 inch minimum size limit for muskellunge in Wisconsin waters of the St. Louis River, to match action taken by the State of Minnesota, and 3) to stipulate that spears and arrows used for fishing have barbed tips. The Department also seeks to make 31 changes of local interest, which propose to make modifications to open seasons or daily bag and size limits for specific species in specific water bodies.

The Department also presented two advisory questions at the statewide hearings. Both received resounding public support, and so the Bureau of Fisheries management will begin writing rules which would extend the open season for muskellunge in southern Wisconsin from November 30 to December 31, and which would mandate the use of "quick-strike rigs" for individuals using live fish larger than 8" as bait. These rules are expected to be presented at the 2008 Spring Fish & Wildlife Rules Hearings. Rule development will be conducted with the input of affected angling groups and the Conservation Congress.

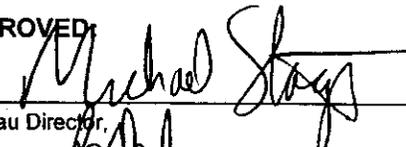

A Natural Resources Board advisory question regarding mandatory background checks for angler education instructors also received strong public support. The Bureau of Fisheries Management intends to work with the Board and the Bureau of Legal Services to determine the most effective way to implement this requirement.

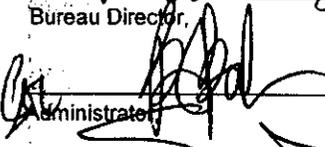

RECOMMENDATION: The Department recommends adoption of Fisheries Management rule change proposals presented herein.

CORRESPONDENCE/MEMORANDUM

SUBJECT: Request adoption of Fisheries Management Rule Change Proposals received favorably at the 2007 Spring Fish and Wildlife Rules Hearings

BACKGROUND

We are recommending that the rule revisions listed below be adopted and incorporated to Wisconsin Administrative Code. These proposals were presented at the Spring Fish and Wildlife Hearings (results attached), April 16, 2007, and received favorable public response statewide, regionally, and locally, are consistent with the management efforts of the Bureau of Fisheries Management and Law Enforcement efforts, and have been reviewed by Department Legal Services staff.

The attached rule order contains the following proposals:

SUMMARY OF THE RULE**Statewide and boundary water proposals:**

1. Eliminate restriction on maximum allowable size of landing nets. Current administrative code stipulates that landing nets may not exceed 36" diameter. Many modern landing nets, particularly those used by musky anglers exceed 36", and the Bureaus of Fisheries Management and Law Enforcement perceive that use of large landing nets presents no risks to the resource.
2. Implement 50" minimum size limit for muskellunge, St. Louis River. This proposal is being made concurrently with a proposal initiated by the Minnesota Department of Natural Resources to implement a 50" minimum size limit for muskellunge in the St. Louis River.
3. Stipulate that spears and arrows used for fishing have barbed tips. This proposal is intended to clarify the definition of a legal spear used for fishing and to be consistent with the barbed tip requirement created for arrows used for bowfishing under 2005 Wisconsin Act 291.

Local Proposals:

1. Increase the daily bag limit for walleye, sauger, and their hybrids in Mineral Lake, Ashland County, from 3 fish to 5 fish and replace the current 18 inch minimum size limit with no minimum, but only one fish larger than 14 inches may be kept.

2. Authorize seining and dipnetting for rainbow smelt in Beaver Dam lake, Barron county, with a continuous open season and no restrictions on harvest hours. A maximum allowable size for seines is specified.
3. Create a 26 inch minimum size limit for trout in Beaver Dam Lake, Barron County, with a 1 fish daily bag limit, and create a 15 inch minimum size limit for trout in the Hay River, Barron County, with a 1 fish daily bag limit.
4. Create an 18 inch minimum size limit for walleye in the Red Cedar chain of lakes (lakes Balsam, Red Cedar, and Hemlock), Barron and Washburn counties.
5. Reduce the daily bag limit for panfish in Middle Eau Claire and Bony lakes, Bayfield County, from 25 fish to 10 fish.
6. Extend the 45 inch minimum length limit for muskellunge in Lake Monona, Waubesa, and Wingra to tributaries and connecting waters of those lakes.
7. Implement minimum size and bag limits for brown trout and lake trout, and an 18 inch minimum size limit and 3 fish daily bag limit for walleye in Keyes Lake, Florence County.
8. Remove the 26 inch minimum size limit and 2 fish daily bag limit for northern pike in Kettle Moraine and Long lakes, Fond Du Lac County and replace those restrictions with no minimum size limit and a 5 fish daily bag limit.
9. Increase the daily bag limit for largemouth and smallmouth bass in the Gile flowage, Iron county, from 2 fish to 3 fish, aggregate, and change the 15 inch minimum size limit to no minimum, but no fish between 14 and 18 inches may be kept and only one fish larger than 18 inches may be kept.
10. Remove the 26 inch minimum size limit and 2 fish daily bag limit for northern pike in the Buffalo (upstream of highway 93) and Trempealeau rivers (upstream of the dam in Blair), Jackson and Trempealeau counties, and replaces those restrictions with no minimum size limit and a 5 fish daily bag limit
11. Eliminate special regulations for trout on a section of the Prairie river, Lincoln county.
12. Implement a 3 fish aggregate daily bag limit for largemouth and smallmouth bass in Big bass and Mission lakes, Marathon county, with no minimum size limit but no fish between 14 and 18 inches may be kept and only one fish larger than 18 inches may be kept.
13. Eliminate special regulations for trout in Plum creek, Pepin County, eliminate special regulations for trout in the Kinnickinnic River and Plum creek in St. Croix County, and change trout regulations on reaches of the Kinnickinnic River in Pierce County.
14. Implement a 3 fish aggregate daily bag limit for largemouth and smallmouth bass in Pipe lake, Polk county, with no minimum size limit but no fish between 14 and 18 inches may be kept and only one fish larger than 18 inches may be kept.

15. Reduce the daily bag limit for panfish from 25 fish to 10 fish in all inland waters of St. Croix county and Cedar lake, which is in Polk and St. Croix counties.
16. Implement a 3 fish daily bag limit for walleye in Cedar lake, Polk and St. Croix counties, with no minimum size limit but no fish between 14 and 18 inches may be kept and only one fish larger than 18 inches may be kept.
17. Implement a 5 fish daily bag limit for walleye in Butternut Lake, Price County, with no minimum size limit but only one fish larger than 14 inches may be kept.
18. Implement restrictive bag and size limits for panfish, largemouth and smallmouth bass and northern pike in Eagle lake, Racine county.
19. Remove the 26 inch minimum size limit and 2 fish daily bag limit for northern pike in Crystal Lake, Sheboygan County and replace those restrictions with no minimum size limit and a 5 fish daily bag limit.
20. Remove the 26 inch minimum size limit and 2 fish daily bag limit for northern pike in Little Cedar Lake, Washington County and replace those restrictions with no minimum size limit and a 5 fish daily bag limit.
21. Create three fish refuges below dams in the Sugar River, Green County, and create a fish refuge on the Yahara River below the Dunkirk dam, Dane county.

POLICY IMPACTS

The proposed rule will not result in major changes to existing policy.

HEARING SYNOPSIS

A public hearing was held in each county of the state on April 16, 2007. Public input was collected through electronic ballots distributed at each meeting, and also through written comments received by the Bureau of Fisheries Management before April 17, 2007. Results of the public hearings are included as an attachment to this document. Local proposals were recommended for adoption only if the local and regional response was favorable. Two written comments were received opposing changes suggested for Prairie River trout regulations, both from individuals advocating for no changes to the current regulations. However, public response to proposed changes at hearing was favorable in Lincoln County, the Northern Region, and statewide. A petition with 186 signatures was received opposing reduction of the daily bag limit for panfish in St. Croix County lakes. This petition was considered in conjunction with the statewide and regional results of the public hearing. Although the petition was primarily circulated in St. Croix and Polk counties, it was inconsistent with the more than 2-1 support of hearing attendees in those counties. Regional response was also solidly in favor of the rule change proposal. The Bureau of Fisheries Management considers the proposed management strategy the most prudent available for panfish in St. Croix county and consequently recommends proceeding with the change. A proposal to implement a closed season for bass, walleye,

and northern pike in the Yellowstone River failed to generate positive public response in Lafayette County and two of three surrounding counties, and therefore was not forwarded as a rule change.

The Department also presented two advisory questions at the statewide hearings. Both received resounding public support, and so the Bureau of Fisheries Management will begin writing rules which would extend the open season for muskellunge in southern Wisconsin from November 30 to December 31, and which would mandate the use of "quick-strike rigs" for individuals using live fish larger than 8" as bait. These rules are expected to be presented at the 2008 Spring Fish & Wildlife Rules Hearings. Rule development will be conducted with the input of affected angling groups and the Conservation Congress.

A Natural Resources Board advisory question regarding mandatory background checks for angler education instructors also received strong public support. The Bureau of Fisheries Management intends to work with the Board and affected program Bureaus to determine the most effective way to implement this requirement.

RESPONSE TO LEGISLATIVE CLEARINGHOUSE COMMENTS

All recommendations made in the attached Legislative Clearinghouse report have been incorporated in the final version of the rule.

CHANGES TO PLAIN LANGUAGE OR FISCAL ANALYSES

No changes were made to either section of the rule.

ENVIRONMENTAL ASSESSMENT

This is a Type III action under Chapter NR 150, Wis. Adm. Code, therefore no EA is required.

FINAL REGULATORY FLEXIBILITY ANALYSIS

The proposed rules do not impose any compliance or reporting requirements on small businesses nor are any design or operational standards contained in the rule.

Assumptions Used in Arriving at Fiscal Estimate

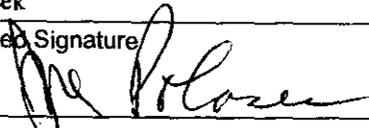

This rule package includes *three* changes of statewide interest:

- 1) Eliminate the restriction on the maximum allowable size of landing nets.
- 2) Implement a 50 inch minimum size limit for muskellunge in Wisconsin waters of the St. Louis River, to match action taken by the State of Minnesota.
- 3) Stipulate that spears and arrows used for fishing have barbed tips.

In addition, the rule package includes approximately 33 changes of local interest. These changes make modifications to daily bag and size limits for specific species in specific water bodies.

These proposed changes will have no fiscal impact at the state or local level.

CLEARINGHOUSE RULE 07-014

Comments

[NOTE: All citations to “Manual” in the comments below are to the Administrative Rules Procedures Manual, prepared by the Revisor of Statutes Bureau and the Legislative Council Staff, dated January 2005.]

2. Form, Style and Placement in Administrative Code

- a. In the plain language rule analysis, paragraph 6 should refer to SECTIONS 7 and 32.
- b. The last sentence of the paragraph under “comparison of similar rules in adjacent states” should refer to SECTION 34.
- c. The rule summary should include information on where comments are to be submitted and the deadline for submission of comments.
- d. The definition created under SECTION 1 should be numbered s. NR 20.03 (37w).
- e. The rule created under SECTION 7 should be numbered s. NR 20.20 (3) (f) 1.
- f. There is inconsistency in this proposal in listing unaffected subdivisions. For instance, SECTION 6 lists the current text of s. NR 20.20 (3) (e) 1., which is not changed by this proposal (see also SECTION 10 for example), while SECTION 13 does not list s. NR 20.20 (26) (a) 1. or 2. before listing proposed changes to subs. 3. and 4. It is suggested that only subdivisions that are affected be shown in this proposal, as is done in SECTION 13.
- g. The references to Lake Superior in s. NR 20.20 (27) (title) under SECTION 14 should be removed or the subsection title should be amended to include the new text. Similarly, the text of s. NR 20.20 (52) (title) under SECTIONS 24, 25, and 26 are missing a reference to Lake Michigan. (See also the subsection title in SECTION 27.)

h. The new paragraph created by SECTION 14 should be numbered par. (dm) since the paragraphs are in alphabetical order.

i. It is suggested that "not listed" be removed from current s. NR 20.20 (47) (g) 2. under SECTION 18 now that there are no longer any waters listed with different trout and salmon regulations. (See for example, s. NR 20.20 (49) (b) 1.) If this language remains, the reader may be confused as to whether waters in this county listed for other species are referenced.

j. The subdivision created under SECTION 20 should be numbered s. NR 20.20 (49) (am) 3. since there already is a subd. 2.

4. Adequacy of References to Related Statutes, Rules and Forms

It is suggested that s. 29.053 (2), Stats., be added to the statutory authority and statutes interpreted lists, and the explanation of agency authority.

ORDER OF THE STATE OF WISCONSIN NATURAL RESOURCES BOARD
REPEALING, AMENDING, AND CREATING RULES

The Wisconsin Natural Resources Board proposes an order to repeal NR 20.06(4); to amend NR 20.05(1), 20.20(2)(g)1. and 3., (3)(d) and (e), (4)(f)1., (13)(d)1., (19)(d), (26)(a)3. and 4., (35)(f), (47)(g), (48)(b), (51)(g)2., (52)(b)2. and (d)1., (60)(e)1. and (g)2., 21.04(1)(b); and to create NR 20.03(37tm), 20.20(3)(f)4., (19)(e)2., (20)(c)3., (27)(cm), (37)(c)2., (49)(am)2., (49)(cm) and (f), (52)(c)2., (59)(c)2., (60)(h), (62)(am), (66)(g)3., (67)(am)2., 26.08(23) and 26.24(13)(b) relating to fishing on the inland, outlying, and boundary waters of Wisconsin.

FH-15-07

Analysis Prepared by the Department of Natural Resources

Statutes Interpreted: In promulgating this rule, ss. 29.531, 29.533, 29.014(1), 29.039 and 29.041, Stats., which authorize fishing, have been interpreted as giving the department the authority to make changes to fishing regulations on inland and boundary waters of Wisconsin.

Statutory Authority: Sections 29.014(1), 29.039, 29.041, 29.053(2), and 227.11(2)(a), Stats.

Explanation of Agency Authority to Promulgate the Proposed Rules Under the Statutory Authority: Sections 29.014(1), 29.039, 29.041, 29.053(2), and 227.11(2)(a), Stats., grant rule making authority to the department to establish and maintain open and closed seasons for fish and game and any bag limits, size limits, rest days and conditions governing the taking of fish and game that will conserve the fish and game supply and ensure the citizens of this state continued opportunities for good fishing, hunting and trapping; grant that the department may establish limitations relating to taking, possession, transportation, processing, and sale or offer for sale, of nongame species; and provide that the department may regulate hunting and fishing on and in all interstate boundary waters, and outlying waters. Section 227.11(2)(a), Stats., expressly confers rulemaking authority on the department to promulgate rules interpreting any statute enforced or administered by it, if the agency considers it necessary to effectuate the purpose of the statute.

Related Rule or Statute: None.

Plain Language Rule Analysis: Section by section details of this rule order are outlined:

Sections 1 and 2 clarify the types of spears which may be used for fishing and that taking rough fish by spearing is a legal method.

Section 3 removes the prohibition of use of landing nets larger than 36 inches, diameter.

Section 4 increases the daily bag limit for walleye, sauger, and their hybrids in Mineral lake, Ashland county, from 3 fish to 5 fish and replaces the current 18 inch minimum size limit with no minimum, but only one walleye larger than 14 inches may be kept.

Section 5 authorizes seining and dipnetting for rainbow smelt in Beaver Dam lake, Barron county, with a continuous open season and no restrictions on harvest hours. A maximum allowable size for seines is specified.

Section 6 creates a 26 inch minimum size limit for trout in Beaver Dam lake, Barron county, with a 1 fish daily bag limit, and creates a 15 inch minimum size limit for trout in the Hay river, Barron county, with a 1 fish daily bag limit.

Sections 7 and 32 create an 18 inch minimum size limit for walleye in the Red Cedar chain of lakes (lakes Balsam, Red Cedar, and Hemlock), Barron and Washburn counties.

Section 8 reduces the daily bag limit for panfish in Middle Eau Claire and Bony lakes, Bayfield county, from 25 fish to 10 fish.

Section 9 extends the 45 inch minimum length limit for muskellunge in lake Monona, Waubesa, and Wingra to tributaries and connecting waters of those lakes.

Section 10 implements minimum size and bag limits for brown trout and lake trout in Keyes lake, Florence county.

Section 11 implements an 18 inch minimum size limit and 3 fish daily bag limit for walleye in Keyes lake, Florence county.

Section 12 removes the 26 inch minimum size limit and 2 fish daily bag limit for northern pike in Kettle Moraine and Long lakes, Fond du Lac county and replaces those restrictions with no minimum size limit and a 5 fish daily bag limit.

Section 13 increases the daily bag limit for largemouth and smallmouth bass in the Gile flowage, Iron county, from 2 fish to 3 fish, aggregate, and changes the 15 inch minimum size limit to no minimum, but no fish between 14 and 18 inches may be kept and only one fish larger than 18 inches may be kept.

Sections 14 and 30 remove the 26 inch minimum size limit and 2 fish daily bag limit for northern pike in the Buffalo (upstream of highway 93) and Trempealeau rivers (upstream of the dam in Blair), Jackson and Trempealeau counties, and replaces those restrictions with no minimum size limit and a 5 fish daily bag limit.

Section 15 eliminates special regulations for trout on a section of the Prairie river, Lincoln county.

Section 16 implements a 3 fish aggregate daily bag limit for largemouth and smallmouth bass in Big bass and Mission lakes, Marathon county, with no minimum size limit but no fish between 14 and 18 inches may be kept and only one fish larger than 18 inches may be kept.

Section 17 eliminates special regulations for trout in Plum creek, Pepin county.

Section 18 changes trout regulations on reaches of the Kinnickinnic river in Pierce county.

Section 19 implements a 3 fish aggregate daily bag limit for largemouth and smallmouth bass in Pipe lake, Polk county, with no minimum size limit but no fish between 14 and 18 inches may be kept and only one fish larger than 18 inches may be kept.

Sections 20 and 27 reduce the daily bag limit for panfish from 25 fish to 10 fish in all inland waters of St. Croix county and Cedar lake, which is in Polk and St. Croix counties.

Sections 21 and 29 implement a 3 fish daily bag limit for walleye in Cedar lake, Polk and St. Croix counties, with no minimum size limit but no fish between 14 and 18 inches may be kept and only one fish larger than 18 inches may be kept.

Section 22 implements a 5 fish daily bag limit for walleye in Butternut lake, Price county, with no minimum size limit but only one fish larger than 14 inches may be kept.

Sections 23, 24, and 25 implement restrictive bag limits for panfish and restrictive bag and size limits for largemouth and smallmouth bass and northern pike in Eagle lake, Racine county.

Section 26 removes the 26 inch minimum size limit and 2 fish daily bag limit for northern pike in Crystal lake, Sheboygan county and replaces those restrictions with no minimum size limit and a 5 fish daily bag limit.

Section 28 eliminates special regulations for trout in the Kinnickinnic river and Plum creek, St. Croix county.

Section 32 removes the 26 inch minimum size limit and 2 fish daily bag limit for northern pike in Little Cedar lake, Washington county and replaces those restrictions with no minimum size limit and a 5 fish daily bag limit.

Section 33 increases the minimum length limit for muskellunge in the Wisconsin portion of the St. Louis river from 40 inches to 50 inches.

Section 34 creates three fish refuges below dams in the Sugar river, Green county.

Section 35 creates a fish refuge on the Yahara river below the Dunkirk dam, Dane county.

Summary of and Comparison with Existing or Proposed Federal Regulations: None known.

Comparison of Similar Rules in Adjacent States: Fisheries management is generally quite similar in the states surrounding Wisconsin. Each bordering state regulates fishing by the use of seasons, bag limits and size limits. Specific seasons, bag and size limits may differ for species across the surrounding states; however, the general principles are similar. Michigan, Minnesota, Iowa and Illinois all have statewide seasons, bag and size limits for fish species, along with special or experimental regulations on individual waters. Section 33, which pertains to muskellunge harvest regulation in the Wisconsin-Minnesota boundary waters of the St. Louis River is written to match a proposal being adopted for the Minnesota portion of the same water.

Summary of Factual Data and Analytical Methodologies Used in Support of the Rule: Rule proposals were developed by fisheries and law enforcement staff to address management and enforcement concerns. Proposals were reviewed for need and adequacy, and approved by a fish team or law enforcement team supervisor and forwarded to regional director for approval. Proposals approved by the regions were forwarded to the Fisheries Management Bureau Director, who conducted a review with the Fisheries Management Board, law enforcement, legal services, and the Great Lakes Indian Fish and Wildlife Commission. Proposals approved by the Fisheries Management Bureau Director are included.

Analysis and Documentation Used in Support of the Agency’s Determination Under s. 227.114, Stats., (Small Business Impact): The proposed rules do not apply directly to businesses, but to sport anglers.

Effect on Small Business, Including How the Rule Will Be Enforced: The proposed rules do not impose any compliance or reporting requirements on small businesses nor are any design or operational standards contained in the rule. The rules will be enforced by Conservation Wardens who have arrest powers and may use citations.

<u>Proposal</u>	<u>Statewide</u>			<u>Region</u>		<u>County</u>	
	Yes	No	Counties approving	Yes	No	Yes	No
1. Eliminate restriction on maximum allowable size of landing nets. Current administrative code stipulates that landing nets may not exceed 36" diameter. Many modern landing nets, particularly those used by musky anglers exceed 36", and the Bureaus of Fisheries Management and Law Enforcement perceive that use of large landing nets presents no risks to the resource.	2769	717	72				
2. Implement 50" minimum size limit for muskellunge, St. Louis River. This proposal is being made concurrently with a proposal initiated by the Minnesota Department of Natural Resources to implement a 50" minimum size limit for muskellunge in the St. Louis River.	2101	895	65	403	145		
3. Stipulate that spears and arrows used for fishing have barbed tips. This proposal is intended to clarify the definition of a legal spear used for fishing and to be consistent with the barbed tip requirement created for arrows used for bowfishing under 2005 Wisconsin Act 291.	2946	448	72				
4. Increase the daily bag limit for walleye, sauger, and their hybrids in Mineral Lake, Ashland County, from 3 fish to 5 fish and replace the current 18 inch minimum size limit with no minimum, but only one fish larger than 14 inches may be kept.	1400	526	66	260	82	18	5
5. Authorize seining and dipnetting for rainbow smelt in Beaver Dam lake, Barron county, with a continuous open season and no restrictions on harvest hours. A maximum allowable size for seines is specified.	1321	435	68	240	54	30	5
6. Create a 26 inch minimum size limit for trout in Beaver Dam Lake, Barron County, with a 1 fish daily bag limit, and create a 15 inch minimum size limit for trout in the Hay River, Barron County, with a 1 fish daily bag limit.	1454	302	71	264	39	33	2

<u>Proposal</u>	<u>Statewide</u>			<u>Region</u>		<u>County</u>	
	Yes	No	Counties approving	Yes	No	Yes	No
25. Eliminate special regulations for trout in the Kinnickinnic River in St. Croix County, and change trout regulations on reaches of the Kinnickinnic River in Pierce County.	981	322	62	233	87	32	5
26. Implement a 3 fish daily bag limit for walleye in Cedar lake, Polk and St. Croix counties, with no minimum size limit but no fish between 14 and 18 inches may be kept and only one fish larger than 18 inches may be kept.	1006	344	58	201	103	51 44	3 5
27. Implement a 3 fish aggregate daily bag limit for largemouth and smallmouth bass in Pipe lake, Polk county, with no minimum size limit but no fish between 14 and 18 inches may be kept and only one fish larger than 18 inches may be kept.	910	379	57	161	110	52 45	6 6
28. Implement a 5 fish daily bag limit for walleye in Butternut Lake, Price County, with no minimum size limit but only one fish larger than 14 inches may be kept.	1084	451	66	212	93	21	2
29. Implement restrictive bag and size limits for largemouth and smallmouth bass in Eagle lake, Racine county.	826	522	46	315	170	70	34
30. Implement restrictive bag and size limits for northern pike in Eagle lake, Racine county.	801	547	44	296	190	65	38
31. Implement restrictive bag and size limits for panfish in Eagle lake, Racine county.	762	594	46	275	215	55	49
32. Remove the 26 inch minimum size limit and 2 fish daily bag limit for northern pike in Crystal Lake, Sheboygan County and replace those restrictions with no minimum size limit and a 5 fish daily bag limit.	1040	278	68	306	58	115	7
