

**SUBJECT: LAND DONATION AND PROJECT BOUNDARY MODIFICATION - WILLOW CREEK FISHERY AREA - WAUSHARA COUNTY**

**FOR: SEPTEMBER 2007 BOARD MEETING**

**TO BE PRESENTED BY: Richard Steffes**

**SUMMARY:** The Department proposes to accept a 0.26-acre donation from Gohlke Realty for the Willow Creek Fishery Area in Waushara County to provide public access to state-owned lands to the north.

The parcel is located in the Village of Red Granite in the Town of Warren in southeast Waushara County. It is situated just outside the southern border of the project boundary with 112 acres of state-owned lands to the north that fall within the Willow Creek Fishery Area. This small rectangular shaped property is important since it would provide public road access to the existing state lands to the north.

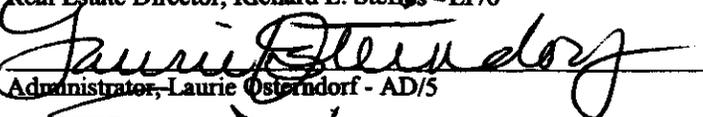

**RECOMMENDATION:** That the Board accept the 0.26-acre donation, that a certificate of appreciation be sent to the donor and that an expression of appreciation be made part of the official records of the Natural Resources Board. Additionally, the project boundary for the Willow Creek Fishery Area be modified to include this parcel.

<u>Covertypes Breakdown:</u>	<u>Type</u>	<u>Acres</u>
	Low, marshy land	0.26

Zoning: Residential, village zoning would not allow developmentPresent Use: VacantProposed Use: Resource Protection and Public RecreationTenure: 9 years2. JUSTIFICATION:

Gohlke Realty has offered to donate a 0.26 acre strip of land as a means for public road access to existing department ownership in the Willow Creek Fishery Area. There are 112 acres of state-owned lands to the north of this small rectangular shaped property that is 30 feet in width by 382 feet in length. Gohlke Realty Company sold the land to the west of this parcel for residential development.

The parcel is located within the Village of Red Granite about 10 miles east of Wautoma in southeast Waushara County. Acceptance of this gift would provide public access to existing state ownership to the north.

The Willow Creek Fishery Area in Waushara County was established in 1953. Willow Creek originates from springs and the outlet of Silver Lake. In addition to unnamed tributaries, Rattlesnake Creek, Cedar Springs Creek and Bruce Creek also flow into Willow Creek, which outlets into Lake Poygan. Stretches of Willow Creek and its tributaries are Class 1 and 2, with natural production of brook and brown trout. Lower stretches include cool and warm water species as well. In addition to protecting the streams, a variety of upland habitat is managed, including forests, savanna and prairie. Beyond fishing opportunities,

the project provides other public recreation such as hunting, trapping, hiking, bird watching and berry picking.

The Department recommends the acceptance of this gift to provide public access to state-owned lands to the north, to assure public recreation and to consolidate state ownership. Additionally, the Department recommends modifying the project boundary for the Willow Creek Fishery Area to include this parcel.

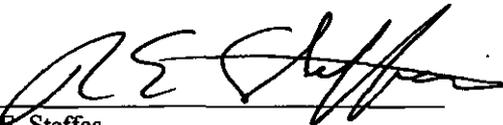

3. FINANCING:

No funding is required for this transaction.

The DNR Managed Lands represent the boundaries of lands managed by the Wisconsin Department of Natural Resources. The Wisconsin DNR manages these lands through ownership, easement or lease rights. This data set is a spatial representation of the Oracle Land Records System maintained by the DNR, Bureau of Facilities and Lands (LF), and may include errors and/or omissions. The data should not be interpreted as a legal representation of legal ownership boundaries.

This data set does not differentiate between lands that are open or closed to the public for hunting and/or general public access. Some lands represented in this data set may not be open to the general public, or may have specific limitations or restrictions on public use. This data set is not intended for use as a land management tool; it is a listing of all DNR real estate transactions that have occurred on these lands over time.

For information about the actual management, including public use and public access of the lands, contact the nearest DNR Regional office. Contact information for DNR Regional Offices and Service Centers is provided on the following internet site:
