

NATURAL RESOURCES BOARD

A G E N D A

For Seminar at:
Room G09, State Natural Resources Building (GEF 2)
101 South Webster Street
Madison, Wisconsin

1:00 p.m. on Tuesday, January 25, 2011

Lead as a Wildlife Conservation Issue

The use of lead by hunters and anglers has recently been brought back into the spotlight. Despite the large body of scientific information regarding the deleterious impacts of lead, a great deal of misinformation still exists. The purpose of this session is to provide factual information regarding lead and its potential impacts to the WI Natural Resources Board (NRB), the Department of Natural Resources leadership, and the public.

ORDER OF BUSINESS:

Scott Craven, PhD, UW Department of Forest and Wildlife Ecology
Introductory Remarks

Robert Thiboldeaux, PhD, WI Department of Health and Family Services
Clinical Effects of Lead on Humans

Julie Langenberg, VMD, International Crane Foundation
Clinical Effects of Lead on Animals including Wildlife

Milt Friend, PhD, Emeritus Scientist, USGS National Wildlife Health Center
History of the Issue and Future Implications

Dave Clausen, DVM, Wisconsin NRB
The Lead Issue as seen by a Veterinarian and Hunter

BREAK

Panel Discussion

Moderator: Scott Craven

Panel:
