

Duck Season Start Time

Problem: Wisconsin's duck seasons do not start at the same time as other hunting seasons.

Currently in Wisconsin, duck hunting starts on opening day at 9:00 A.M. This is neither concurrent with any other waterfowl season in Wisconsin nor any other hunting season in Wisconsin. In a call to simply regulations, duck season should be opened at one half hour before sunrise, like every other hunting season in Wisconsin. No data has suggested that duck season could not be started at such time.

BE IT RESOLVED, that the Conservation Congress at its annual meeting held in Milwaukee County on April 14th 2014 recommend that the Conservation Congress work with the Department to take action to correct this situation by changing the start time of duck hunting in all zones on opening day to one half hour before sunrise.
