**Equipment Information & Price Quote:**

*Make additional copies of this sheet if needed for additional equipment. When quoting, please be mindful that awards are limited to \$100,000 total and some projects have specific match requirements: vehicle/equipment replacement have a 75% match, idle reduction units have a 50% match, and engine repowers have a 25% match. After subtracting match dollars, the Total Project Cost below should not exceed \$100,000.*

Proof of United States Environmental Protection Agency (EPA) or California Air Resources Board (CARB) verification required for each type of retrofit device being quoted. *Verification statement(s) must be attached to price quote.*

VIN	Technology <sup>1</sup>	Base Unit Price <sup>2</sup>	Installation Price <sup>3</sup>	Total Price <sup>4</sup>
<b>Total Project Cost<sup>5</sup></b>				

- (1) List the technology to be installed on that specific piece of equipment
- (2) Base Unit Price is the cost of the technology with all hardware required for proper installation (excludes optional accessories)
- (3) Put "NA" if the customer is self installing. Costs of self installations are not eligible.
- (4) Total Price includes base price, installation labor if by vendor, and taxes (if applicable). Costs for optional accessories and all other costs are ineligible.
- (5) Total Project Cost is the sum of the amounts in the "Total Price" column.
