**Subject:** Military

I just got your message. I'm working in the ICU today but of course somehow I'm supposed to drop everything and call you by noon. Nothing like context when I'm dealing with ruling out COVID cases!

My tenants are closing in some cases. Unless you can provide a medical reference of the dangers of this, I do not intent to evacuate my tenants otherwise.

The filters will not work as per Paul. But there is nothing like spending my money on something that doesnt work...right.

If you feel that you can do this faster...then please proceed with state lead work. The fact that I have been in communication with Paul, my attorney, the bank via email all morning today (in the evening yesterday) trying to resolve this is obviously not good enough for you.

If you need to contact me, please do it by email only.

Neziri
