Hi Bruce, we sampled 52 & 53 yesterday and the samples were picked up. We have bottles so we will take a sample from 51 today and the lab will pick it up tomorrow.

Eric, really hoping that you have an extra bottle and can sample MH51 also. If not, please sample 51 and 52 (53 has been sampled twice already). Thanks, Bruce

Hi Bruce,

I did get your VM, I had nothing that talked about testing MH 51. If the testing has not yet been done and we have an extra bottle I can do that, or if you think it would be beneficial I could test 51 & 53 and not 52. We tested MH162 just NW of MH 51 in march and it came back non-detect.

Bruce/Matt,

We are scheduling to test this week. We will be taking samples from MH's 52 & 53 along Emter St as requested. I will forward the results once we have them. We hope to have the report completed the end of June with all the results. Thanks.
