Subject: Marinette MGP Superfund Alternative Site in Marinette, Wisconsin

Peter – On October 2, 2017, the Wisconsin Department of Natural Resources (department) received notice of the United States Environmental Protection Agency's (U.S. EPA) planned negotiations with the potential responsible party for the remedial design of the response actions at the Marinette MGP site. The notification also extended an opportunity to the department to participate in the negotiations or be a party to any settlement agreement. This email serves as notification to the U.S. EPA that the department would like to participate in the negotiations and be a party to any settlement agreement.

Please feel free to contact me if you have any questions or if you require additional information.

The department looks forward to working with you.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Kristin DuFresne
