Subject: WPSC Marinette MGP - PDI WP Addendum 1, Sampling Plan for Fincantieri Marinette Marine Property

Good Afternoon Margaret,
WDNR has completed our review of the WPSC Marinette MGP PDI WP Addendum 1.

The list of parameters in Table 1 is acceptable as it matches the 9 PAHs that were sampled as part of the original PDI work. However, the approved PDI WP Rev 2 also included TOC in the list of parameters for the soil sampling in the WWTP Zone and Boom Landing Zone. I don't believe the TOC sampling is necessary, but if the intent is to be consistent with the original plan then TOC may need to be added to the list of parameters.

As an aside Cheryl Bougie retired from the DNR in January and should no longer receive future correspondence.

Thank you for the opportunity to review and provide comment. Please let us know if you have any questions.

Thank you,
Sarah

We are committed to service excellence.
