**Subject:** RE: Enbridge Status

Carrie – Barr is putting the final touches on the report this week. I should have something in the mail to you by next week. Apologies for the delay.

No significant changes at the site in 2015 although benzene concentrations continue to decrease. We are actually on site today trying some redevelopment techniques at a couple wells that have sporadic LNAPL to see if there is just some residual product in the filter pack or well screens. I'll let you know how that goes.

On another note, would you be available to meet perhaps after you've had a chance to review the 2015 Annual Report? I'd like to discuss site closure strategies with you as we are approaching the 10 year mark for this site 😊

Thanks,  
Karl

**Importance:** High

Hi Karl, do you have any updates for this site? My notes state a report was to be sent in February or March. Thanks, Carrie
