Subject:

Bi-Monthly Progress Report, Madison-Kipp Corporation (MKC) Site, 201 Waubesa Street, Madison, Wisconsin.

Dear Ms. Hanefeld:

On behalf of MKC, this Bi-Monthly Progress Report provides a summary of the activities completed from July 13 through July 30, 2013 as part of the MKC site located at 201 Waubesa Street in Madison, Wisconsin (site).

Tasks Completed – July 13 through July 30, 2013

The following tasks were completed during the period of July 13 through July 30, 2013 and are presented in chronological order.

- Restoration activities related to the *Addendum to the Final Revised Work Plan for Polychlorinated Biphenyl Recommended Activities* at the residences of 233, 241, 245, 249, 253, and 257 Waubesa Street are ongoing.
- The *Additional Polychlorinated Biphenyl (PCB) Sampling Work Plan, Western Property Boundary* was submitted to the Wisconsin Department of Natural Resources on July 18, 2013. The WDNR approved this work plan by electronic correspondence dated July 30, 2013.
- Weekly SVE system Operation, Maintenance and Monitoring (OM&M) was performed by ARCADIS and Kipp personnel July 22, 24, and 30, 2013. Monthly OM&M was performed by ARCADIS personnel July 15, 2013. The SVE system was intermittently down due to a high water level in the moisture separator during the period of July 13 through 30, 2013. All water generated during SVE maintenance was processed at the Madison Kipp process water treatment facility on site. Data collected during the weekly and monthly OM&M will be included in the next bi-monthly summary report.
