

Governor's Task Force on Global Warming

Technical Advisory Group
Update on the Reference Case and
Assumptions Book
January 25, 2008

Status Report

- Delay in getting “final” reference case model, which will incorporate Energy Act
- TAG has reviewed and agreed on Energy Act related assumptions to use in model
- TAG has reviewed and followed up on numerous comments on Dec. 16 Assumptions Book

Federal Energy Security Act

Relevant items from the Energy Act are being incorporated into the model and Assumptions Book

- vehicle fuel economy (CAFE standards)
- renewable transportation fuels
- Electric motors, external power supplies, residential boilers, furnace fans and walk-in coolers and freezers
- efficient light bulbs and metal halide lamp fixtures

Reference Case

- Jan 28: ICF to provide TAG with the “final” run output
- Jan 30: TAG will meet to review output
- Jan 31: TAG will post the reference case on the web for Task Force review
- Feb 5: TAG will present to Task Force
- Work continues on reviewing policy templates
