Wild Ginseng (Panax quinquefolius) is: ginseng that is not grown or nurtured by a person. This includes all wild-simulated ginseng, from wild or cultivated seeds, planted in a wild forest habitat. This does not include cultivated or woods-grown ginseng. (Contact the Wisconsin Department of Agriculture, Trade and Consumer Protection (608-224-5116) for regulations regarding Wisconsin cultivated or woods-grown ginseng).

Wild Ginseng Regulations: Wisconsin law regulates the harvest, sale, and purchase of wild ginseng in the state and its shipment out of and into the state. This publication summarizes the main points of Wisconsin’s wild ginseng laws. For Wisconsin’s complete wild ginseng laws, consult s. 29.611, Stats., and ch. NR 28, Wis. Adm. Code.

Harvest Regulations
License Requirements: No person may harvest (cut, root up, gather, carry away or destroy) wild ginseng unless the person has a valid wild ginseng harvest license issued by the Department of Natural Resources (Department). Exemption: a license is not required for a person who harvests wild ginseng growing on the person’s own land if the ginseng is not sold. "Own land" means ownership interest in property by deed or land contract.

Harvesters Must:
• Have a valid wild ginseng harvest license in their possession at the time of harvest and sale;
• Show the license to Conservation Wardens upon request, and display it to wild ginseng dealers when selling their ginseng.

Harvest Licenses are available at DNR License Sales Agents and online at dnr.wi.gov. License costs per harvest season are:
• $15.75 for Wisconsin residents,
• $30.75 for non-residents.

Open Harvest Season:
September 1 - November 1, both dates inclusive. No person may, between November 1 and the following September 1, cut, root up, gather, or destroy wild ginseng.

Permission to Harvest Ginseng is Required:
• Persons possessing a valid wild ginseng harvest license may harvest wild ginseng on private lands only with the permission of the landowner to do so.
  • No person may harvest wild ginseng on properties enrolled in MFL or VPA programs without the landowner’s permission.
  • Check with managers of county and municipal lands. Harvest rules for these lands will vary.
  • All Tribes have different tribal laws and agreements with the state. Check with tribal entities for applicable harvest regulations.

Where is Harvest Prohibited?
• No person may harvest wild ginseng from any State of Wisconsin owned or administered land.
• All National Parks, National Forests, National Wildlife Refuges and Federal Waterfowl Production Areas are closed to ginseng harvest.

Plant Size Restriction: Plants may be harvested only if they possess 3 or more true leaves (prongs) and a flower/fruit stalk. The entire stalk, minus mature berries, shall be kept with the plant until they are taken to the harvester’s home or place of business.

Seed Planting Requirement: Harvesters must plant all seeds from harvested plants in the vicinity of the parent plants in a manner which will encourage germination and growth (Squeeze seeds from red berries and plant them about 12 inches apart and one inch deep in loose soil. Cover with leaf litter).

Wild seed may not be sold or transported away from the site of the parent plant.

Sale by Harvesters: Wild ginseng harvested in a lawful manner and with a valid harvest license may be sold by the licensee to a licensed Wisconsin wild ginseng dealer from September 1 to March 31, both dates inclusive.

Note: Harvesters planning on having wild ginseng in their possession after March 31 must have their ginseng inspected and be issued a Certificate of Origin by the Department by March 31 following harvest for such ginseng to ever be eligible for international export.

For Transport of Wild Ginseng Out of the State: See the section titled “Shipment & Certification of Origin Requirements”.

Purchase Regulations
A Dealer License is required: Any person who purchases at least 8 ounces of wild ginseng in Wisconsin for the purpose of resale is considered a dealer and is required to have a Wisconsin Wild Ginseng Dealer License. Paid employees or family members of a licensed dealer who are working at the primary place of business for that dealer will be covered by the licensed dealer.

Dealer licenses are valid July 1 to June 30.

Dealer License Options:
• Resident Class A ($100) - for transactions up to 100 dry pounds in a license year.
• Resident Class B ($500) - for transactions up to 1,000 dry pounds in a license year.
• Resident Class C ($1000) - for transactions of unlimited amounts in a license year.

Non-residents ($1000) for transactions of unlimited amounts in a license year.

Dealer licenses are available from DNR Customer and Outreach Services, 101 S. Webster St., P.O. Box 7921, Madison, WI 53707 (1-888-936-7463).
Dealers may purchase Wisconsin wild ginseng only from licensed harvesters or licensed dealers and must inspect the seller's license when purchasing. Dealers are responsible for ensuring that wild ginseng they purchase was legally harvested. Caution is recommended if purchasing green ginseng between November 1 and the following September 1 due to greater risk of purchasing illegally obtained wild ginseng. Ginseng that law enforcement deems illegally obtained may be subject to seizure.

Record & Reports: Each dealer must keep a complete and accurate record of each wild ginseng shipment and transaction (purchase, sale, gift or exchange) on forms provided by the Department. Records must be retained for three years. All records, annual summary reports and annual inventory reports must be submitted as requested on forms provided by the Department.

Shipment & Certificate of Origin Requirements

- No person may ship/transport out of this state wild ginseng that originates in this state unless the wild ginseng is accompanied by a valid Certificate of Origin issued by the Department.
- No person may ship out of this state to a foreign country wild ginseng that originates in another state unless the ginseng is accompanied by a valid Certificate of Origin issued by the originating state.
- No resident may purchase for the purpose of resale wild ginseng that originates in another state unless the ginseng is accompanied by a valid Certificate of Origin from the other state.
- If a dealer who is a resident receives wild ginseng that originated in another state without an accompanying Certificate of Origin, the dealer shall return the ginseng to the sender within 30 days after its receipt.
- Dealers are responsible for ensuring that all roots sold for export as wild ginseng are indeed wild, are 5 years of age or older, and were legally harvested. Shipments are subject to inspection at port of export. Shipments deemed illegal or without proper documentation may be seized and enforcement action may be taken.
