GREEN means it is safe to proceed with your normal routine.

YELLOW means extremely sensitive people should limit prolonged outdoor exertion.

ORANGE means sensitive individuals should limit their outdoor activities. This group includes those with lung or heart ailments, elderly, children, and people who work or spend a lot of time outdoors.

RED means the air quality is unhealthy: everyone should slow down and take it easy.

Use the Air Quality Index

Every day the Environmental Protection Agency (EPA) uses a color-coded scale known as the Air Quality Index (AQI) to report the amount of pollutants present in the air and the level of health concern.
