

Sauk Prairie Recreation Area

Munitions & Explosives of Concern Clean up Areas

Munitions & Explosives of Concern Clean up Areas

- MEC Areas
- Project Boundary
- Future DNR Managed Lands
- Force Main Sewer
- Sanitary Process Main
- Building
- Slab

MEC areas have been certified clear of MEC's up to 4 ft. in depth. Land can only be used for farming, agriculture, surface recreation, vehicle parking, or surface supply storage uses. To the best of the Army's knowledge no MEC is currently present within structures on the property. There is a possibility that MEC may exist on the property within the industrial sewer system and/or beneath cement slabs.
